

Välkommen till EECS personalmöte

Welcome to EECS All Employee Meeting

A written summary of the meeting will be posted on intra.kth.se/eeecs

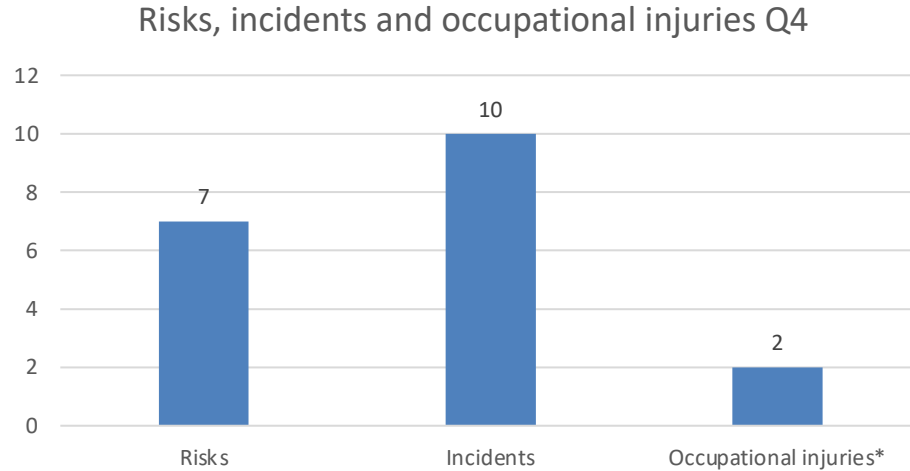

Agenda

- Health, safety and environment (HSE)
- Visits from the new President
- IEEE Fellows
- News from the departments
- Error reporting of your indoor temperature
- The President's visit
- The operational plan
- The department support teams
- Swedish course for all employees
- AEM spring term 2023
- Q&A.

Risks, incidents and occupational injuries Q4

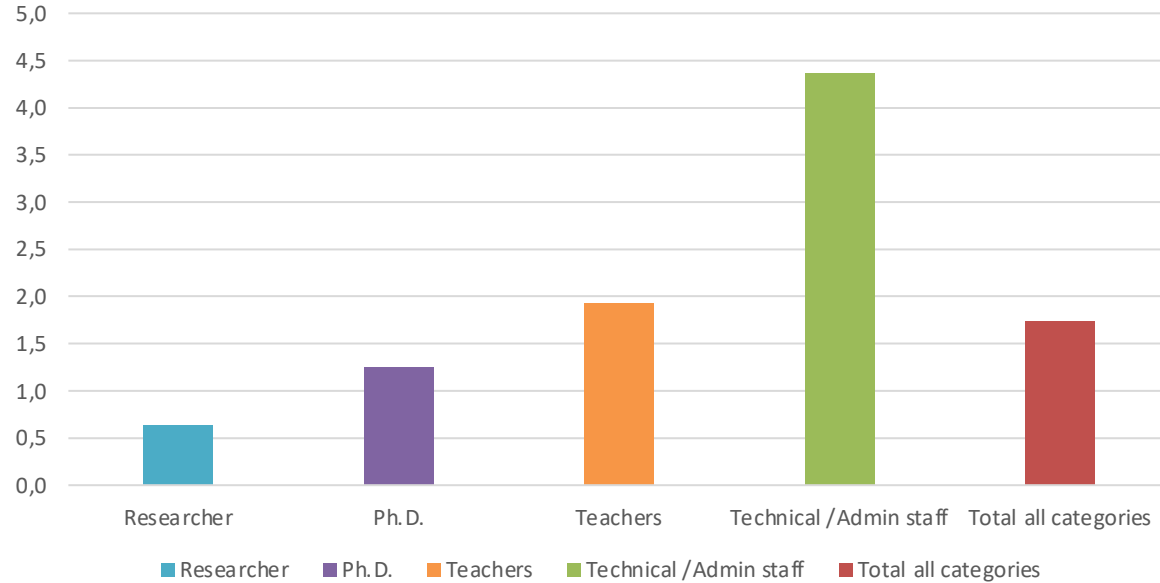

*Includes commuting accidents

Sick leave 2022

Year: 2022

Reporting of your indoor climate

- Error reporting must be done via service@eecs.kth.se.
- After that, we first check that the thermostat is set to heat.
- If this is the case, we measure the temperature in the room with thermometers three times every other day.
- If the temperature is below 20.5 degrees, we report an error to Akademiska Hus.

It's important to report errors!

- All received error reports help us to improve our indoor climate in the long term.
- Before an error report has been registered, KTH cannot make demands against our landlord, Akademiska Hus.

[About our indoor climate](#)

Visits from the new President

- Anders visited EECS on 6 December for a school introduction.
- On 10 January, he visits Kista and will get a tour of our operations in Kista including the Electrum laboratory and the Semiconductor centre
- The planning of this visit is underway.

New IEEE Fellows

- On average, Sweden gets 2-3 IEEE Fellows per year, but for 2023 KTH received four (out of a total of five to Sweden) – all four people are on EECS
- Dimos Dimarogonas for contributions to distributed and hybrid control of multi-agent systems
- Oscar Quevedo-Teruel for contributions to glide symmetry-based metasurfaces and lens antennas
- Henrik Sandberg for contributions to model reduction and secure control systems.
- Xiongfei Wang for contributions to power-electronic-based power systems

To the list, EECS researchers awarded prestigious fellowships

News from the departments

The department of Computer Science (CS)

- Will be arranging courses for teachers in the New Year regarding the new NVIDIA DGX100 GPU machine. This machine will be phased in during early-mid 2023 to support undergraduate teaching in ML and other courses that require GPU support. Please look out for further news.
- The new DGX H100 will be the first of its kind in Europe.

The department of Electrical Engineering (EE)

- Gunnar Malm receives SEK 1,3 million grant from the Swedish foundation for strategic research (SSF) programme "Strategic Mobility", for his project "Spintronics in 6G communication systems".
- Xiongfei Wang and Oscar Quevedo Teruel have been awarded IEEE Fellow.
- Carl-Mikael Zetterling has been awarded Teacher of the year.
- The department will leave 4th floor on Teknikringen 33 from 1 July 2023.

The department of Human Centered Technology (HCT)

- Olle Bälter – awarded university hero by SULF (Sveriges universitetslärare och forskare).
- Madeline Balaam and Sandra Pauletto receive 2 MSEK from Digital Futures for the project: Layering Trust in Intimate Digital Health Technologies: Learning from Challenging Experiences.
- New Assistant Professor in Computer Science spec. Interaction technologies, Andrii Matviienko – will arrive in March.

**Grattis
Olle Bälter!**

Sveriges universitetslärare och forskare har utsett dig till högskolehjälte. Du får utmärkelsen för ditt sätt att driva på den utvecklingen med bland annat frågor och frågebaserat lärande. Du är en mycket uppskattad kollega.

The department of Intelligent Systems (IS)

- Two IEEE Fellows on IS!
- Dimos Dimarogonas for contributions to distributed and hybrid control of multi-agent systems
- Henrik Sandberg for contributions to model reduction and secure control

The department support teams

- Each department will have its own support team within finance, controlling and HR.
- There are some vacancies within finance – the work to fill these is ongoing.
- Don't forget to use this resource!

Support for departments

The operational plan

- On 14 December, all division and department heads, skolkollegiet, doctoral representative and the vice head of professional support met to discuss common school goals for our operational plan
- We collected a lot of input that will be incorporated in our new operational plan
- The operational plan will be finished February/March

Free Swedish course in Kista

- As an EECS employee, you can learn Swedish this spring semester.
- Join the course with start in week 4.
- [Register for the course](#)

See you next semester!

- Merry Christmas!
- Keep an eye in our weekly newsletter pEECS and Slack for Zoom link and agenda.
- Send your proposals for topics to communication-support@eecs.kth.se

The spring term's All employee meetings

Planning is on-going

Same Zoom link for all AEM <https://kth-se.zoom.us/j/65209843843>

Q & A

See you at our next all employee meeting!

Keep updated on intra.kth.se/eecs and on Slack
