

Welcome to the EECS Staff meeting

30 March, 9:00–9:30

Agenda

- Ann Lantz – management information
- Markus Hidell on first and second cycle education
- Carl-Mikael Zetterling on the Electrum lab
- Anette Arling from Finance on the school budget
- Anna Kiefer from Digital Futures
- Emanuel Borg from doctoral support
- Anna Mård, Felicia Gustafsson and Tysse Norlindh Falk from HR
- Q&A

Management information

84 persons have been recruited to EECS during January – March 2023. Including:

- 9 administrative officers
- 28 undergraduate assistants (amanuens)
- 13 doctoral students
- 5 researchers
- 12 research engineers
- 12 post doctors
- 1 industrial doctoral student

Congratulations Wouter!

Wouter van der Wijngaart (EECS) will represent the teachers in the University board for the mandate period 2023-05-01 – 2026-04-30 together with Ulrica Edlund (CBH), Nicole Kringos (ABE).

KTH and President decision

Changes to the KTH Management Group from January

- The group includes the President, Deputy President, Head of School, the University Director and Deputy Director, and a representative of the Student Union.
- Meetings are held once a week.

President decision on activities to restore financial balance

- Deputy president: suggest how costs for all premises can be decreased, investigate consequences of changed operations on one or more Campuses.
- Head of school: increase the income from GRU, reduce costs or increase the income in our business plan for 2024.
- University Director: cut costs within the administrative support with 50 million SEK until the end of 2024.

Campus visits

- The President, Deputy president and the University director will visit Campus Södertälje, Campus Flemingsberg and Campus Kista on 31 March.
- The visit to Kista will be at 13:30, in Sal B.
- Heads of department and heads of division with connection to the campus have been informed, but everyone at the school is welcome to attend.

EECS' management

The management group at EECS includes the Head of school, the Deputy head of school, the Director of First and Second Cycle Education (GA), the Director of Third Cycle Education (FA), Heads of department, the Head of the school's faculty assembly, the Head of administration and student representatives.

The group meet 1-2 times per month.

The extended management group at EECS also include Heads of division, the Director for Electrum lab and for PDC.

The group meets once a month.

The most important topics on the agenda during February and March have been:

- Business plan 2023 (24-25)
- Support with economy, prognose 2022, budget 2023
- The department head role
- Communication plan
- Results from the PhD councils' evaluation and actions, results from Pulsmätning and actions.
- Responsible internationalisation.

Reminders

- **EECS is looking for a new head of faculty renewal (FFA).** The deadline for sending in an application is 30 April. If you have any questions about the role, contact Lars Nordström.
- **EECS will have a summer party on the 8 June!** All school staff is invited. Focus will be on our various centres. There will be good food, posters, presentations, music and maybe also some dancing. More information to come!

An update from 1st and 2nd Cycle Education

Admission to EECS master's programmes

Markus Hidell, Acting Director of First and Second Cycle Education

EECS master's programmes—local admission

Electromagnetism, Fusion and Space Engineering

Electric Power Engineering

Nanotechnology

Information and Network Engineering

Embedded Systems

Systems, Control, and Robotics

ICT Innovation

Communication Systems

Computer Science

Software Engineering of Distributed Systems

Interactive Media Technology

Machine Learning

Cybersecurity

Admission to MSc is a timely matter

- Screening of international applicants and admission to our master's programmes
 - Over 4700 first-hand applicants to EECS 2023, over 1/3 of KTH's total number
 - Hard work by programme directors to evaluate and set merit scores
- Presidents decision "Economy in balance" as of 7 February 2023
 - Suggest how to reduce premises costs
 - Investigate possibilities to increase admission numbers
- Criteria for a responsible increase in number of admitted students
 - Maintain quality of the applicants we admit
 - Maintain quality of the education we deliver to the admitted students
 - Dialogue between GA, program directors and directors of studies

EECS admission numbers 2023

Program	Admitted 2022		Admitted 2023		
	FEE	NON-FEE	FEE	NON-FEE	
TCOMM	MSc Communication systems	70	12	70	12
TCSCM	MSc Computer science	32	28	43	24
TCYSM	MSc Cybersecurity	5	16	8	18
TEBSM	MSc Embedded systems	84	12	88	16
TEFRM	MSc Electromagnetism, fusion and space engineering	36	21	37	16
TELPM	MSc Electric power engineering	42	4	53	6
TIMTM	MSc Interactive media technology	44	24	60	25
TINNM	MSc Information and network engineering	53	7	48	6
TIVNM	MSc ICT Innovation	22	10	17	14
TMAIM	MSc Machine learning	47	43	34	50
TNTEM	MSc Nanotechnology	46	14	50	14
TSCRM	MSc System, control and robotics	21	15	38	15
TSEDM	MSc Software engineering of distributed systems	17	26	25	43
	Total	519	232	571	259

Increase in admission numbers (FEE+NON-FEE): ~10%

Note: Number of registered students much lower: 40-45% of admitted

Department of Electrical Engineering

Overview of some KTH research centres and facilities

Carl-Mikael Zetterling

Electrum Laboratory, part of Myfab

ISO 9001 certified management system:

- controlled processes and tool uptime
- calibrated characterization tools

Processes for many applications

Circuits and discrete devices:

- Electronics and Microsystems in silicon
- Optoelectronics in III-V materials
- High power and High temperature in silicon carbide.

Research and development

Inventing and manufacturing of novel devices
Network of researchers and entrepreneurs

Small scale production

Incubator for start-up and spin-off companies

Education

Advanced graduate and undergraduate courses.

Contact: Nils Nordell, nordell@kth.se

Electrum Innovation Environment

In average one new company per year, since 1997 – started or moved in

KTH Space Center (SCI)

Director: Christer Fuglesang
Deputy director: Carl-Mikael Zetterling

- KTH Space Center coordinates and promotes space-related activity at several KTH departments from all five schools, with an overarching objective of establishing KTH as a "Space University" and a hub for Swedish space research and technology.
 - Monthly seminars, hybrid, next is 4/4 in D2
 - Space Rendezvous every semester, in Kista 27/4
 - Sign up for the mailing list
 - Also organizes KTH Space Technology Laboratory:
Thermal vacuum chamber (+/- 150°C), climate chamber, vibration and shock tables
-

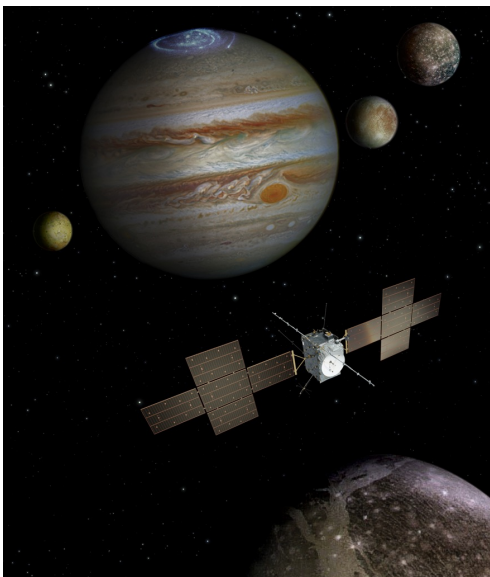

ESA JUICE satellite mission to explore Jupiter system

Space and Plasma physics division is part of the team

Ariane 5

- ESA (European Space Agency) plans to launch JUICE on 13th April with its arrival to the Jupiter system in 2031.
- Jupiter is the largest planet in the solar system with 92 moons and counting. JUICE will be the first mission launched that is fully dedicated to exploring the Jupiter system and will be the first mission ever to orbit a planetary moon – Ganymede.
- Sweden is a major contributor and KTH Division of Space and Plasma physics provides thermal modelling, ground hardware and ground calibration to the Radio and Plasma Wave Investigation (RPWI) instrument.
- Lorenz Roth (KTH) will be at the spacecraft operation center in Darmstadt during the launch and report directly.
- KTH Space Center seminar on JUICE 4th April 15:15 in D2 and zoom. Jan-Erik Wahlund, IRF, Uppsala

Thermal modelling

Ground calibration

Lars Bylander

JUICE assembly for launch.

Space Rendezvous comes to Kista

- how to successfully launch new Swedish space companies into orbit?

KTH Space Center invites to

- Seminars
- Fika with Cake
- **Guided tours of the Electrum Laboratory**
- Exhibition
- Panel discussion
- Space pub

Time: Thursday, April 27, 13:00 – 17:00

Place: Electrum, Sal A and Zoom

Anette Arling, Finance

HR

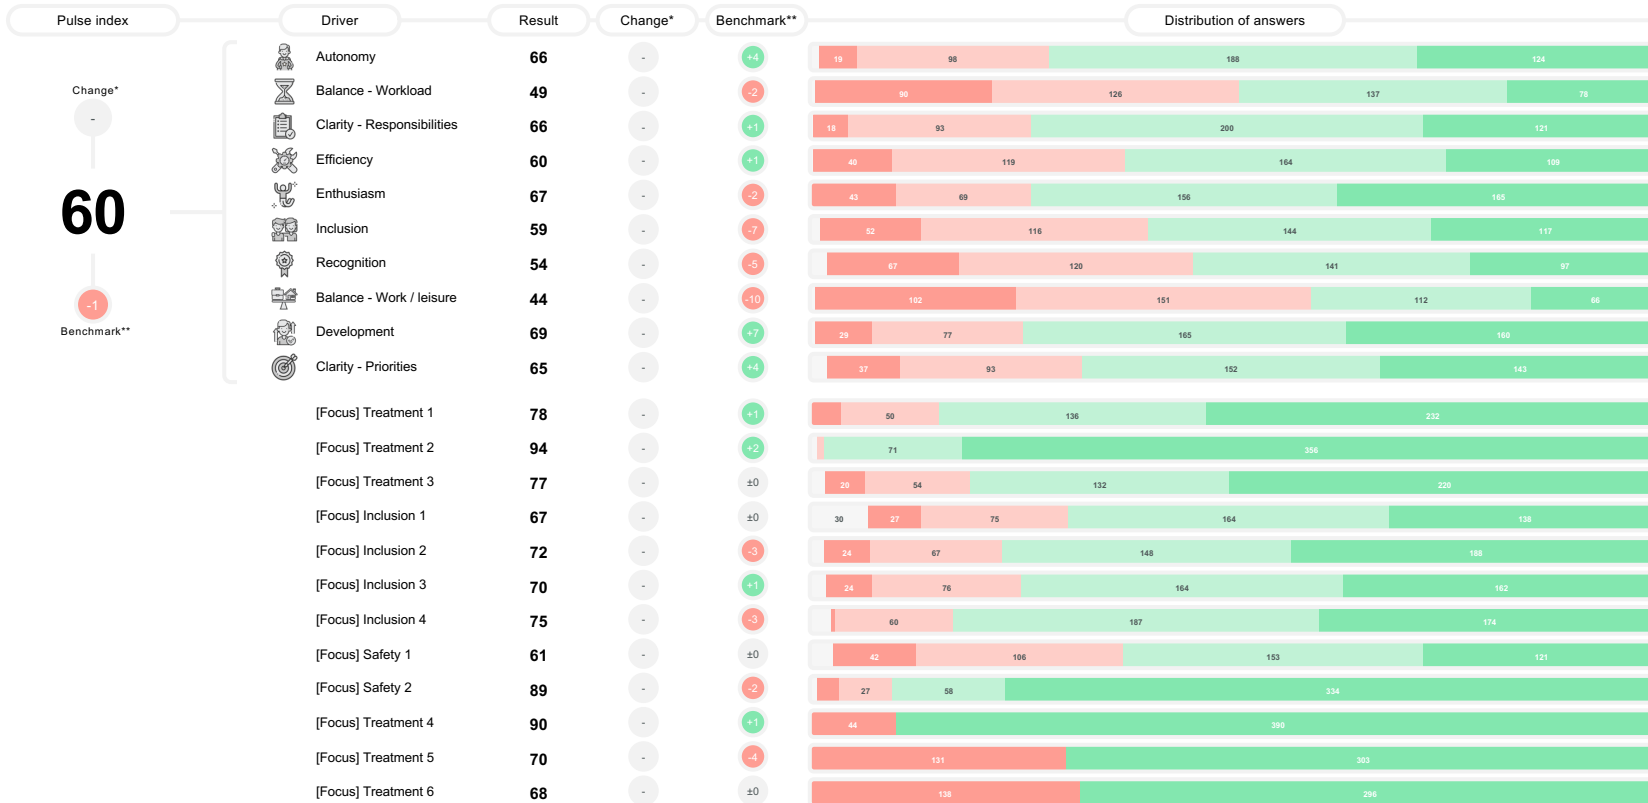

The employee survey, how to report unwelcome behaviour,
and registering next of kin

Summary KTH Employee survey – EECS results

* Available after the next occasion
 ** Compared to KTH Kungliga Tekniska Högskolan

Results

- Similar results between departments and divisions
- Enthusiasm and development
- Workload/balance
- Where to turn when you experience discrimination, harassment or other unwelcome behaviour

What next?

- Discussion and activities in each division and on school management level
- Next survey 9 May – theme: organisation and leadership

Where to turn for support

For employees

- Your manager, supervisor or HR
- EECS contact persons (HR): Felicia Gustafsson , Anna Mård, Maria Engman
- Safety representatives (Skyddsombud)
- Occupational Health care (Avonova)

For students

- EECS contact person (Student Affairs): Sofia Norlander
- Student Health Services (Studenthälsan)
- Student Union THS – student head of educational affairs
- Student web – form - make a complaint/ report (anonymous complaint possible)

The University administration

[The University administration](#)

Support for departments

Recruitment support

Discrimination, harassment, sexual harassment and victimization

KTH's core values are based on democracy, the equal value of human beings, human rights and freedom and free and open discussion. Equality between men and women and the dissociation from all forms of discrimination are both an issue of quality and a natural part of KTH's core values. Equality and diversity among employees and students also represent important resources for KTH.

If you need support when you feel that you have been discriminated, harassed, sexually harassed or been exposed to victimization you can turn to your immediate manager or to the EECS contact person to whom you can find contact information to in the bottom of the page.

How to make a report

The first step is a talk to the person you turn to for support, to give your version of event and then together discuss how to proceed. As regards to a complaint to KTH, there are no special formalities. A complaint may be in spoken or written form.

You can also contact a counsellor at the [occupational health care](#), [your trade union representative](#) or one of the [EECS safety representatives](#).

You may find more information about investigation, measure and reporting on [KTH central administrations internal pages](#).

How to find information – "My employment"

The screenshot shows the KTH Intranet navigation menu. The top bar includes the user name 'Felicia' and navigation links for 'Schema', 'Kursur', 'Program', 'Grupper', and 'Tjänster'. Below this, the 'KTH Intranet' header is visible with a search bar. The main navigation menu includes 'My employment' (highlighted in yellow), 'Support & Service', 'Education', 'Research', and 'Organisation & Regulations'. A sidebar on the left lists various employment-related topics, with 'When being discriminated or harassed' highlighted in yellow.

..Or Google

The screenshot shows a Google search result for the query 'report eecs harassment'. The search results page is circled in black. The top result is from 'kth.se' with the URL 'https://intra.kth.se › arbetsmiljo'. The title of the result is 'Discrimination, harassment, sexual harassment and ...'. The snippet below the title reads: 'If you need support when you feel that you have been discriminated, harassed, sexually harassed or been exposed to victimization you can turn to your immediate ...'. Below this, another result is visible with the title 'Discrimination support and complaint - KTH' and a snippet mentioning 'File a complaint ... You can make a complaint to KTH if you have been ... discrimination, harassment, sexual harassment or victimisation.'

HR: Add a next of kin in the Self-reporting System

- We encourage you to name at least one relative/next of kin who can be contacted in case of emergency
- Update information

The screenshot shows the 'My services' page in the KTH self-reporting system. The 'Services' tab is selected in the top navigation bar. The page is divided into three main sections: 'Ladok for students', 'Other selected services', and 'Services for students'. In the 'Other selected services' section, the link 'Egenrapporteringen (HR+)' is circled in red. A dark blue sidebar menu is open on the right, listing various reporting categories: 'Custom Reporting', 'My Pages', 'My personal data', 'My position', 'My vacation', 'My tax information', 'Payslip', and 'Hjälp för Mina sidor'.

What's next?

- **What should we call these meetings?**
Several suggestions submitted – vote for your favourite via pEECS
- We will share this PowerPoint after the meeting – link in Slack #eecs-general
- Next Staff meeting on 1 June in F2, KTH Campus.

Q & A
