Reduce energy usage - a mission for everyone at KTH

According to the sustainability policy, KTH must be a technologically leading university in sustainable development and be a role model in the environment and sustainability. Based on its role, KTH must contribute to achieving the UN's global goals and Agenda 2030. According to the European Parliament and the Council's Directive (EU) 2018/2002, the public administration has a leading role in the work to improve efficiency and reduce energy use.

During the summer and before the holidays, we can all contribute to reducing KTH's energy usage. Every kWh counts!

In particular, keep in mind that:

- Switch off your KTH work computer and computer monitor and any other devices at your workplace before you go on holiday.
- Turn off equipment in standby.
- Turn off all lighting (except emergency lighting) in unmanned premises.
- Unplug the charger before you go home.
- When you're at the office, don't keep windows open, only ventilate briefly if necessary. Remember to close the window afterwards.

Closed buildings during the summer 2023

During the period 23/12-1/1, Maskinteknik (43:37), U-huset (43:32) and Valhallavägen 79 were closed down. Ventilation and temperature were lowered during this period. It resulted in a reduced energy consumption of 18,570 kWh, which is almost equivalent to the annual consumption of 1 villa (20,000 kWh).

Decisions have also been made to close premises during the summer holidays to contribute to our sustainability goals, reduced energy use and for security reasons. Staff can always enter with an access card.

- The front doors of all buildings on KTH Campus, Campus Kista, Campus Flemingsberg and Campus Södertälje will be locked during the period 2023.06.19–2023.08.06, v25-v31.
  - Lindstedsvägen 5 (D-part), Week: 26-30
  - Teknikringen 72-76, Week: 24-31
  - Teknikringen 78 and Brinellvägen 22 C, Week: 25-31
  - Teknikringen 28, Week: 26-31
  - Drottning Kristinas väg 30 and Brinellvägen 1, Week: 26-31
  - Brinellvägen 26-28, Week: 26-31
  - Brinellvägen 23, Week: 24-30
  - Brinellvägen 64 A-D, Week: 28-30
  - Malvinas väg 6B, Week: 27-31

The library will be closed week 27 through week 31. Support is open all summer at 10-12. For more information, see KTH's intranet.

Buildings where study places are available for students during the summer break:

- 43:03, Osquars Backe 2/Lindstedsvägen 3, only level 4 in the E part
- 11:22 p.m., Teknikringen 14, computer rooms Fylke

For opening hours at KTH Entré, see the intranet Welcome to KTH Entré | KTH.
