

## **Amir Rashid, professor of manufacturing, KTH**

Amir Rashid is a Professor of Manufacturing at the Department of Production Engineering, School of Industrial Engineering and Management, KTH Royal Institute of Technology, Stockholm, Sweden.

With a strong interest and focus on sustainability in manufacturing processes and systems, he has a vast experience of leading research in circular manufacturing at international level, especially through the European framework programmes for research and innovation. He has also been leading the KTH initiative on circular economy (CE@KTH) and has developed a research team that is working on circular manufacturing systems. Amir has a PhD in Production Engineering and more than fifteen years of experience in manufacturing industry as well”.
