

Bio Charlotte Bergqvist

Charlotte Bergqvist has worked with renewable energy and future issues for 20 years. She has worked as CEO, board member and chairman of the board, and currently works as Head of Development and Sweden at the energy company Cloudberry Clean Energy, which develops, owns and operates water, solar and wind power. In 2022, she was named Power Woman of the Year for her efforts to make people and organisations grow and contribute to a sustainable, gender-equal tomorrow.
