Hi Ulrika, here’s the effects of low office presence

**Negative impact of low office presence**

Organizations are concerned that many employees consider their home as their main workplace. Photo: Bruno Cervera, Unsplash

**New employees and young people lack support**

A new study examining office work in the aftermath of the pandemic reveals major differences in how much employees are coming into the office. For example, half of the organizations in the study do not reach 40 percent attendance. This can have a negative impact on the organization and their work, according to KTH researchers.

January's newsmakers
Who's in the spotlight this month? Mattias Wiggberg, among others! See what findings, results and researchers have attracted attention outside KTH during January.
Newmakers January 2024

ITM scientist solved coffee problem: order a hamster!
Jonas Anund Vogel and David Bohn Stoltz at ITM have developed a framework for ordering coffee to get the right amount of milk by using animal fur-colour.
Check out what animal your coffee is

We celebrate Björn Palm's birthday and retirement
Björn Palm has supervised many students over the years, has been head of department and division and – above all – lead groundbreaking research on heat pumps. In this video some of his past and current colleagues remember a loved leader and researcher.
Video: A tribute to Björn Palm

psst
skilled musicians
12
days to Fettisdagen

Is KTH's renowned orchestra looking for YOU?
KTH's Academic Orchestra is looking for new musicians. Musicians who have a connection to KTH (staff/students) are prioritized. You are more than welcome as a professor, engineer, administrator, PhD, scientist or simply technically skilled on your instrument.
Play with the orchestra

Who's counting the days?
Semmelwrap, Princess semla or hot dog semla? Nowadays there's a semla for every taste, and they are only 12 days away (but who's counting...?). Read about the most crazy variations offered this year on the link below (Swe).
This year's oddest semlor (Expressen)
Fees allow more people to use KTH's laboratories

Now, KTH's research infrastructures can charge companies and industrial partners who want to use laboratory equipment and research facilities.
