

Nedanstående information vänder sig till alla som arbetar med masterantagningsprocessen 2025.

Hej!

Nedan finner ni reservantagningsprocessen för antagning av reserver till KTH:s masterprogram inför hösten 2025.

Vänligen notera att antagningstalen styr hur många studenter som kommer att kunna reservantas i respektive urvalsgrupp. För att reservantagning ska kunna ske måste redan antagna studenter ha tackat nej till sin plats.

Aktuell information över hur många antagna och reserver som finns per urvalsgrupp samt antagningstal finns på NyA-webben.

Under funktionen Antagna/Reserver hittar man alla antagna, alla reserver och strukna till ett program. Info-knappen visar även detaljerad information om antal antagna och antal platser i varje urvalsgrupp.

Urvalsinformation	
Antal antagna	44
Antal reserver	323
Antal strukna	85
Antagningstal U1	86
Antagningstal U2	0
Efterantagningstal	0
Planeringstal	32

Detaljerad urvalsinformation

Urvalsblock	Antal antagna	Antal reserver	Antal strukna	Antagningstal U1
Avgiftsskyldiga	6	191	56	30
Avgiftsbefriade	38	132	29	56
Totalt	44	323	85	86

Reservantagningsperiod 4 april – 5 maj för avgiftsskyldiga reserver

Mellan **4 april och 5 maj** är det möjligt att anta **avgiftsskyldiga** reserver till KTH:s masterprogram. Observera att datumen satts för att säkerställa att alla antagna reserver ska kunna vara på KTH vid terminsstart (och dessförinnan blivit fakturerade av KTH och hunnit ansöka om uppehållstillstånd).

Arbetsprocess:

- UA på respektive skola meddelar antagningsgruppen via info@kth.se vilket masterprogram man önskar anta reserver till samt hur många reserver som ska antas i urvalsgruppen för avgiftsskyldiga (AVG).
- Antagningsgruppen antar löpande reserver via NyA-webben under denna period. Antagningsgruppen meddelar UA på respektive skola när reservantagningen är klar. Antagningsbesked till antagna kommer automatiskt att skickas via antagningssystemet i samma stund som reservantagning utförs på NyA-webben.
- Antagningsgruppen fakturerar därefter omgående alla avgiftsskyldiga reserver som antagits. Deadline att betala fakturan är 31 maj.

Reservantagningsperiod 4 april fram till terminsstart för avgiftsbefriade

Det är möjligt att anta **avgiftsbefriade reserver** från den **4 april och fram till terminsstart**. Ha dock i åtanke att antagna ska kunna ha möjlighet inställa sig vid terminsstart samt planera en ev. flytt från hemort/land och ordna bostad m.m.

Arbetsprocess:

- UA på respektive skola meddelar antagningsgruppen via info@kth.se vilket masterprogram man önskar anta reserver till samt hur många reserver som ska antas i urvalsgruppen för avgiftsbefriade (BEFR).
- Antagningsgruppen antar löpande reserver via NyA-webben under denna period. Antagningsgruppen meddelar UA på respektive skola när reservantagningen är klar. Antagningsbesked till antagna kommer automatiskt att skickas via antagningssystemet i samma stund som reservantagning utförs på NyA-webben.

Om ni har frågor om reservantagningsprocessen är ni välkomna att kontakta antagningsgruppen via info@kth.se

Vänliga hälsningar

Christina Wansheim & Mats Åberg
Antagningsgruppen

Hi!

Please see the information below regarding the admission process for students on the reserve list to KTH's master's programmes for autumn 2025.

Please note that the *antagningstal* (admission numbers) decide how many students that can be admitted in each selection group. In order to admit students from the reserve list, admitted students must first have declined their offer, thus making their places available for reserves.

To find information about the number of admitted students and reserves, as well as the admission numbers for each selection group, please go to NyA-webben.

Under the heading "Admitted/Reserves" you will find lists over all admitted, reserve placed and deleted (declined) students. The Info-button also shows detailed selection information regarding the number of admitted students and number of places for each selection group.

The screenshot shows the 'Admitted/Reserves' section of the NyA-webben interface. It displays the 'Choice of course offering' with the following details:

- School/department:** ABE-PROG/Arkitektur och samhällsbyggnad/NyA-webb
- Admissions round:** Internat
- Education:** KTH-E0121, TARKM, Master's Programme, Architecture, 120 credits, 120.0hp, 30.0hp, 100%

The 'Selection information' table is as follows:

Number of admitted	44	Admission number S1	86
Number of reserves	323	Admission number S2	0
Number of deleted	85	Late admission number	0
		Planning number	32

An 'Info' button (circled in red) is located next to the 'Admission number S1' value. Below the table, there are three tabs: 'Admitted', 'Reserves', and 'Deleted'. The 'Admitted' tab is currently selected, showing 'Admitted right now: 44'.

Detailed selection information

Selection block	Number of admitted	Number of reserves	Number of deleted	Admission number S1
Avgiftsskyldiga	6	191	56	30
Avgiftsbefriade	38	132	29	56
Total	44	323	85	86

Reserve admission period 4 April – 5 May for fee paying students on the reserve list

It will be possible to admit **fee paying students** from the reserve list to KTH's master's programmes between **4 April and 5 May**. Please note that the dates have been set to ensure that all admitted reserves will be at KTH at the start of the semester (and that they have been invoiced by KTH and have had time to apply for a residence permit).

Process:

- The UA at each school notifies the admissions office via info@kth.se which master's programme wishes to admit reserves and how many reserves you wish to admit from the selection group for fee paying students (avgiftsskyldiga).
- The admissions office will continuously admit reserves through NyA webben during this period. The admissions office will notify the UA of each school when the reserve admission process is complete. An updated notification of selection results will automatically be sent via the admissions system to the now admitted students.
- The admissions office will thereafter send invoices to all fee paying students that have been admitted from the reserve list. The deadline to pay the tuition fee is 31 May.

Reserve admission period 4 April until the start of the semester for non-fee paying students on the reserve list

It is possible to admit **non-fee paying students** on the reserve list from **4 April until the start of the semester**. Please consider that there should be time allowed for the student to arrive at KTH in time and to arrange for a move from their home town/country as well as ensure accommodation.

Process:

- The UA at each school notifies the admissions office via info@kth.se which master's programme wishes to admit reserves and how many reserves you wish to admit from the selection group for non-fee paying students (avgiftsbefriade).
- The admissions office will continuously admit reserves through NyA webben during this period. The admissions office will notify the UA of each school when the reserve admission process is complete. An updated notification of selection results will automatically be sent via the admission system to the now admitted students.

If you have any questions regarding the reserve admission process, you are welcome to contact the admissions office via info@kth.se

Kind regards

Christina Wansheim & Mats Åberg
