

Notice of a new interdisciplinary journal

Environmental Humanities is an international, open-access journal that will invigorate current interdisciplinary research on the environment. In response to a growing interest around the world in the many questions that arise in this era of rapid environmental and social change, the journal will publish outstanding scholarship that draws humanities disciplines into conversation with each other, and with the natural and social sciences.

In Brief

First volume: November 2012

Volumes: 2 per year
