

# Electrical engineering at the Jubilee event

Don't miss any of our speakers at the Campus 100 years Jubilee event in October! Watch live in the Dome of Vision or online at [kth.se/campus100](http://kth.se/campus100).

## 17th of October

21:00 Wouter Van Der Wijngaart: *Systems in the microscale and nanoscale*

## 18th of October

00:00 Göran Marklund: *The heritage of Hannes Alfvén*

00:30 Lorenz Roth: *Jupiter's Galilean moons - a diverse aurora laboratory*

02:00 Tomas Karlsson: *The Rosetta spacecraft-to measure plasma waves around a comet*

11:30 Jan Scheffel: *Fusion will produce sustainable electricity – but how do we get there?*

12:00 Lars Nordström and Lina Bertling Tjernberg: *Electricity for a sustainable future*

19:30 Stefan Östlund: *KTH the international university*

22:30 Joakim Lilliesköld: *From a man in a lab coat to a girl with shitty robots*

23:30 Gunnar Karlsson: *KTH education 2027/2028 - A design fiction*

## 19th of October

01:00 Henrik Sandberg: *Control, privacy, and security in the cloud*

02:00 Mathias Ekstedt: *Secure IT-systems for the future - Is it possible?*
