REQUEST FOR PROPOSALS

OBJECTIVES

This request for a proposal is for your community to apply for development expertise and assistance from Kounkuey Design Initiative (KDI). If you are interested, please read the information below and answer the questions to the best of your ability. Should you have detailed questions, an information sharing session about the potential project on at 2pm on 14th and 21st May 2016.

MISSION

Kounkuey Design Initiative (KDI) partners with residents of impoverished areas to develop and implement design solutions that improve physical, economic and social life. To date, we have developed a number of Productive Public Spaces, in Kibera, Lindi, Mashimoni, and Gawekera. These projects have created and environmental benefits for the residents of Kibera. Identified, this project will mark KDI's first project in Kibera. KDI is committed to providing design solutions that improve the lives of the residents of Kibera.

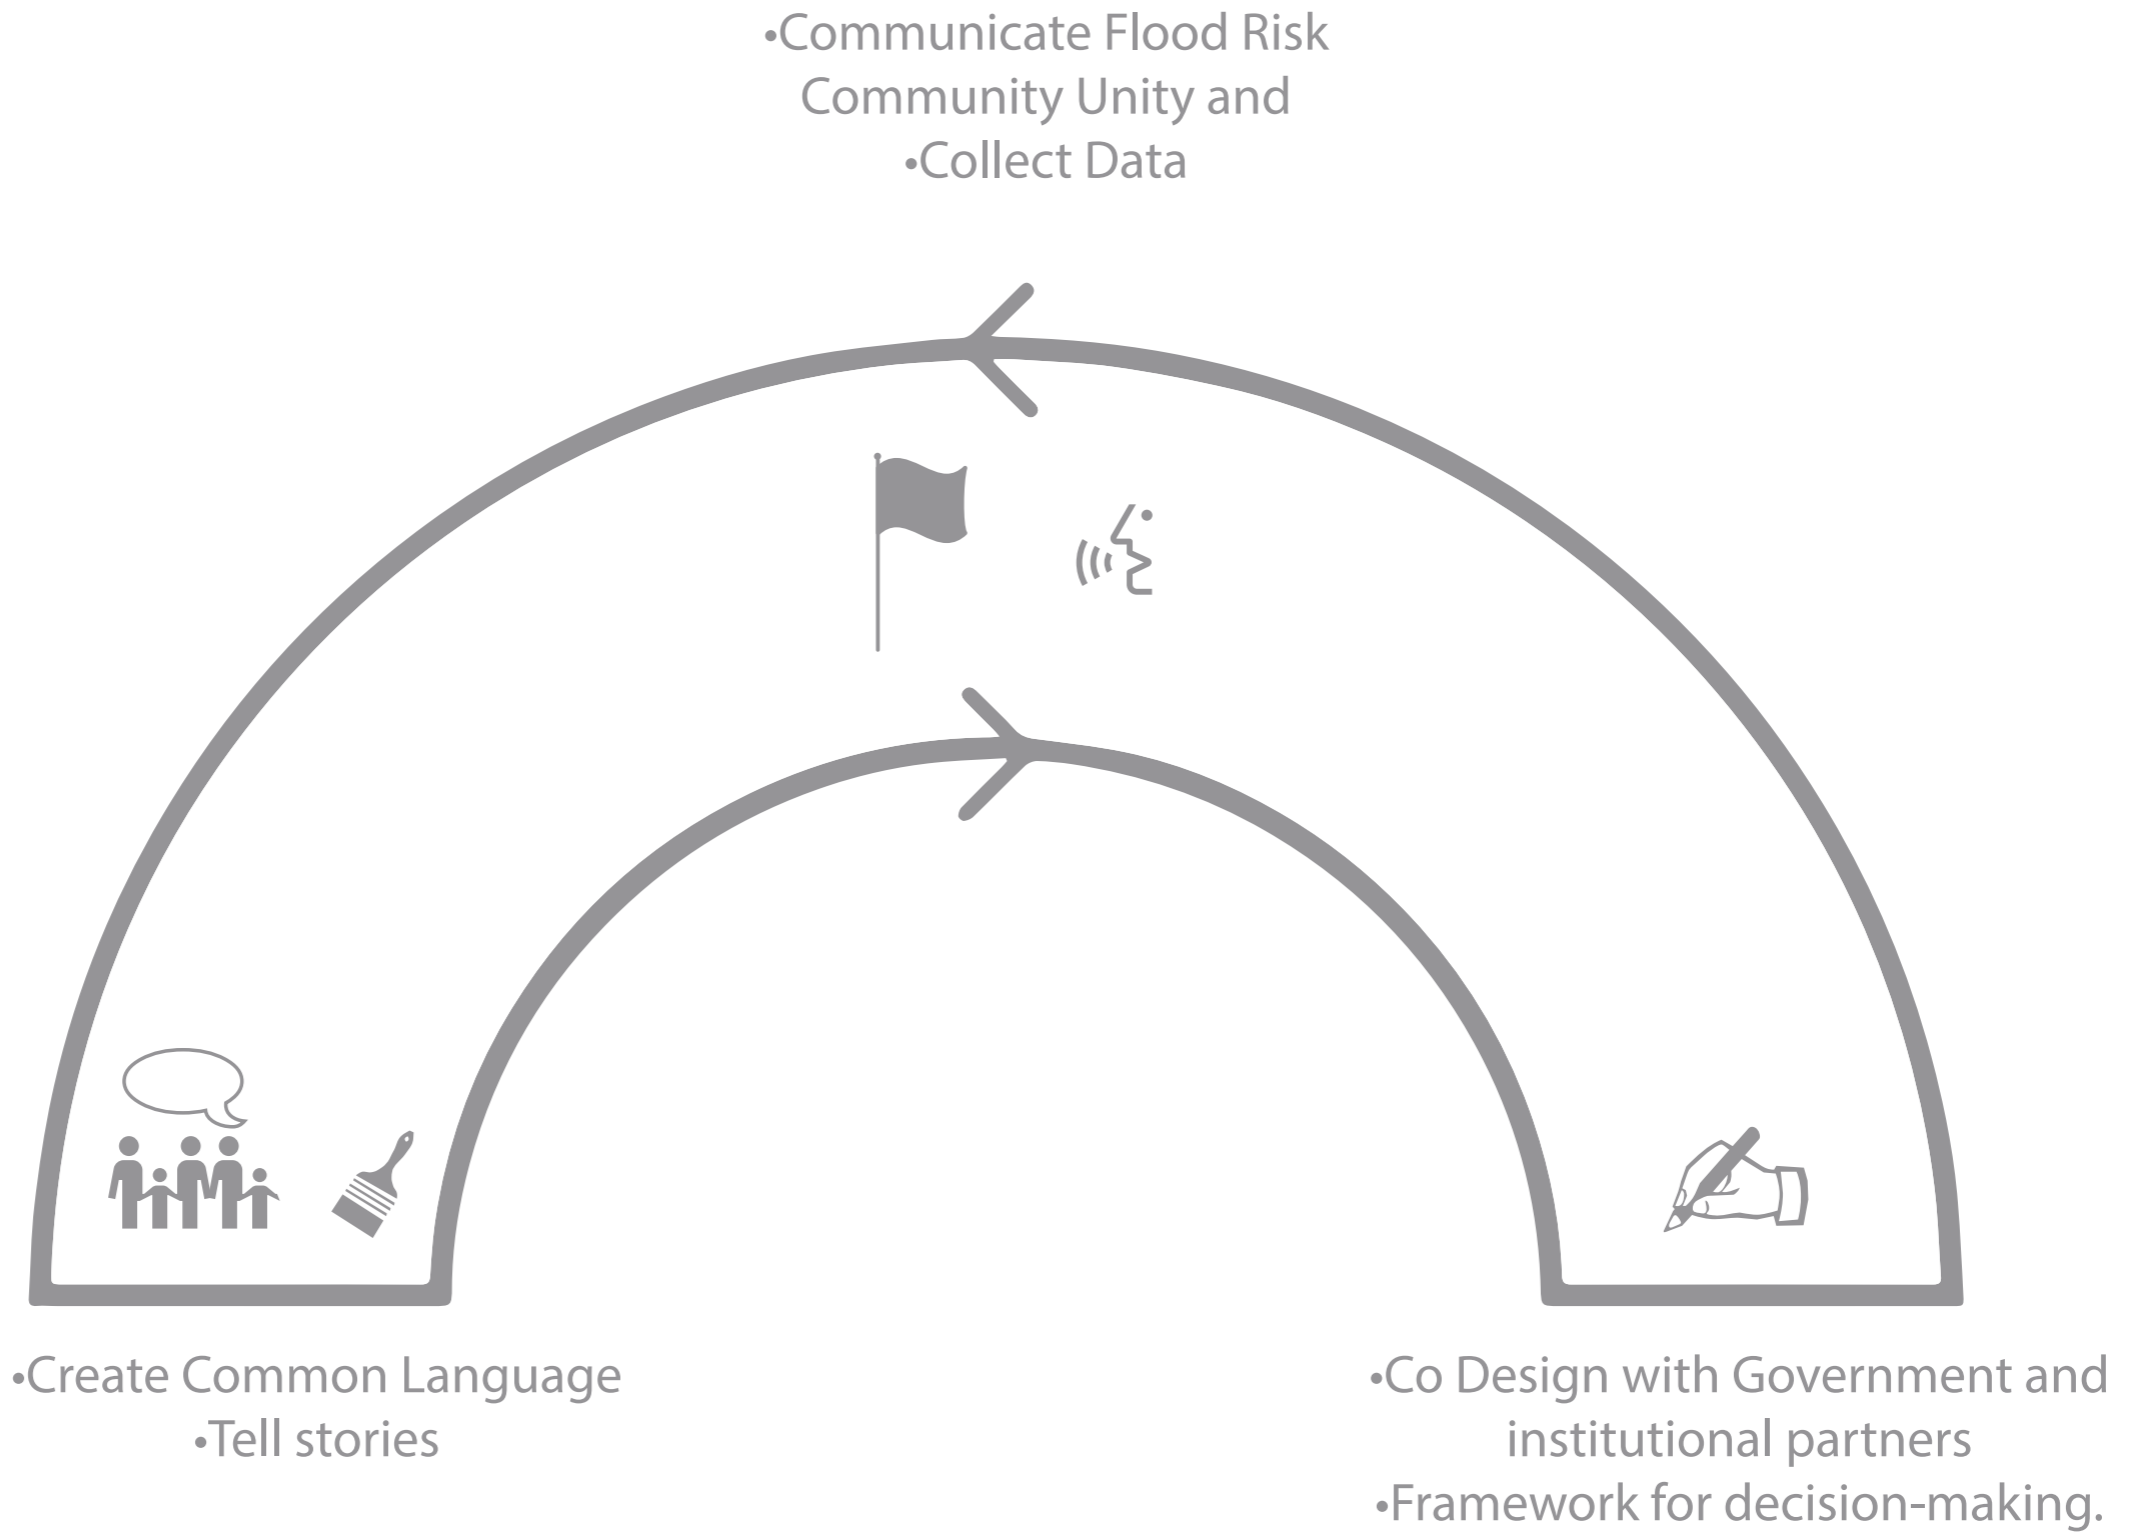

LOCAL INFLUENCE

'the hungry landlords can see a source of income by constructing rental houses which they tend to lower their rent to attract desperate people...

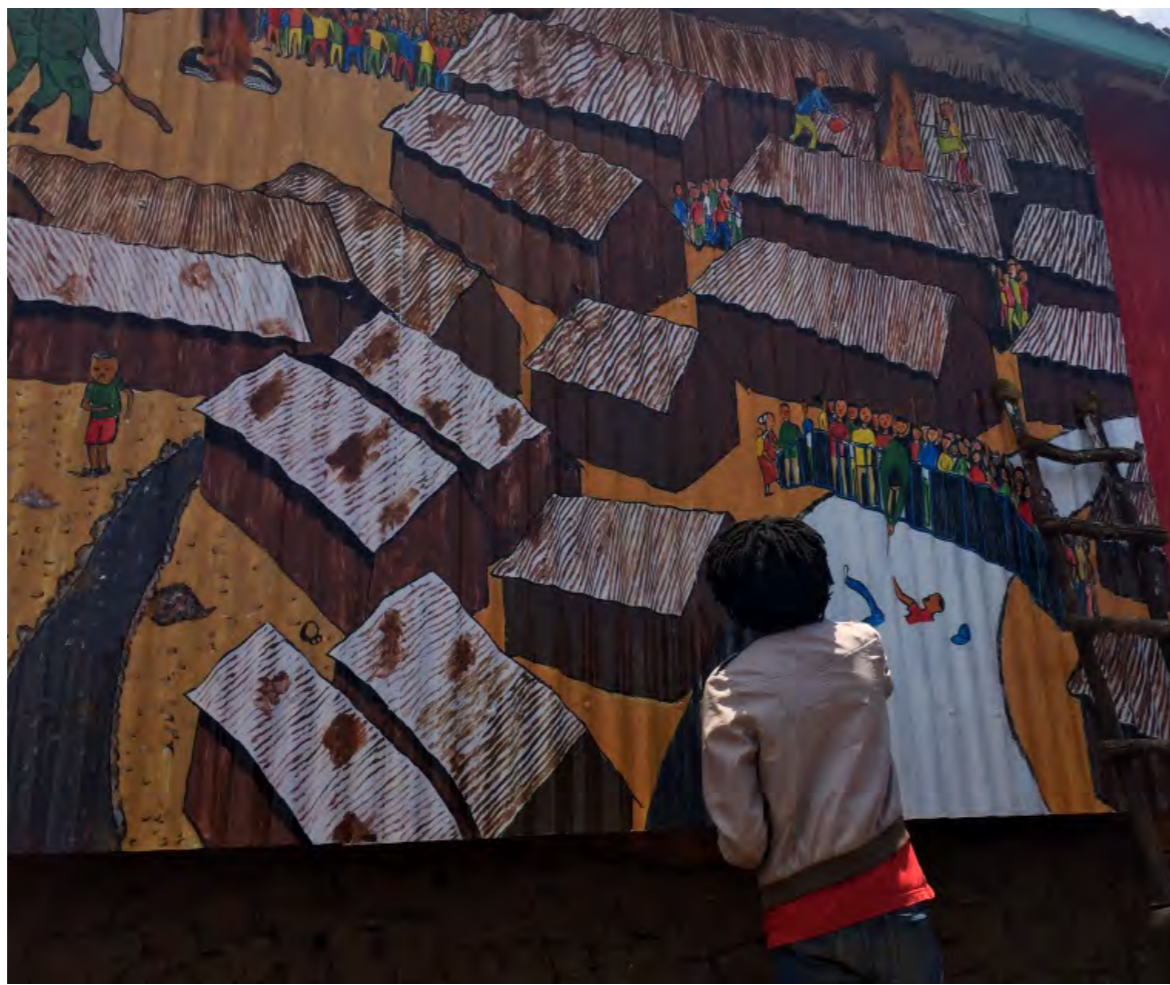

...the old guys who have stayed around that area for long knows how dangerous that space can be... every building that was constructed along that space was destroyed'
