

## Project title

This pre-proposal should be **maximum 3 pages, including one page CV.**

Remember to include the following information:

- Objective
- Methodology
- Short presentation of the scientists (the project group)
- Time schedule and short description of activities
- State of the art on the international level
- Expected results, scientific impact and national use
- Collaboration (universities/industry)
- Short description on how the application would fulfill the Wallenberg objective:  
*"Promote scientific research, teaching and/or education beneficial to the Kingdom of Sweden"*  
and how *"the researchers' complementary skills make it possible to address/focus on hypotheses and questions that individual researchers would otherwise have difficulty in undertaking themselves"*
- Overall cost/budget estimation
- 1 page CV of PI including link to Google Scholar profile and e-mail address
- Contribution of the project to the KTH research strategy/the KTH development plan

Please also take care of the structure and style of the application. It should be well written and easy to understand without over technical language.

Please look at the guidelines and assessment criteria at the [KAW website](#).

The pre-proposal should be send to [wallenbergfoundations@kth.se](mailto:wallenbergfoundations@kth.se) at Research Support Office no later than the **20<sup>th</sup> of September 2019**.
