

SCHOOL OF ENGINEERING SCIENCES IN CHEMISTRY, BIOTECHNOLOGY AND HEALTH

# CBH News

Nr 11 June 2019

2019-06-09

**S**o we have reached the end of the spring semester, our second as a CBH school. We still have some activities left to carry out, and one of these is a summer school which we are organizing together with Shanghai Jiao Tong University (SJTU).

The initiative was taken in 2011 and the first summer school was held in Shanghai 2012 and since then, it has alternated between SJTU and KTH.

During this week, KTH will be the host and we will be visited by doctoral students and master's student who will meet both students and researchers, but also take part in a thorough lecture program with la activities. We will be present on all of CBH's campuses so you will see us.

Associate Professor Anna Herland (ECCS) has, together with our international coordinator Zofia Laine, been responsible for the program during the week. A big thank you for a fantastic effort!

On May 28, CBH had its summer party, which began with impressive doctoral student presentations in KTH's largest lecture hall F1 in the form of "pitches", short, more popular scientific presentations. This was followed by a buffet and mingling. We were nearly 400 people and we have received many positive reactions, which is why we plan to carry out a similar summer party next year as well.

During the past week, we also got the news that the Knut and Alice Wallenbergs Foundation have decided to support «Wallenberg Center for Protein Research - WCPR» with SEK 160 million during the years 2020–2023. Many congratulations to Professor Mathias Uhlén!

CBH's doctoral students made short, popular scientific presentations at the school's summer party on May 28.

Finally, I would like to wish all of the school's coworkers a really nice and much-needed summer vacation!

Mikael Lindström  
Head of School

All contributions must be in by 12.00 on Monday the same week as CBH News is published in order to be admitted. See the current deadline at the last page.

# Welcome Astrid Dillner!

**On June 3, Astrid Dillner began as educational administrator at the CBH school and Campus AlbaNova.**

**What does feel like to have started working at CBH?**

It feels really exciting, I am hopeful.

**What will you be working with?**

I will be working as educational administrator and will administer exams, among other things.

**About which issues can you be contacted?**

You are welcome to contact me on issues related to exams, I am at the student service desk on floor 5.

**Where do you come from most recently?**

I have been working at the EECS school with document management.

**What do you hope to accomplish in your new role?**

I hope to be able to be helpful as a good support to students and employees.

---

## Successful first meeting with Zoom

**CBH's administration has carried out a first successful meeting in the videoconferencing system Zoom.**

This happened on May 29 during a review of a staff survey in Tresearch's premises on Campus Valhallavägen.

Coworkers on Campus Flemingsberg and in other locations took part in the meeting remotely and the technology worked excellently, not least thanks to assistance from systems administrator Johan Pettersson.

# Summer quiz winners selected

**The winners of the quiz at the CBH school summer party have now been selected. Congratulations to Sara Sebelius and Giampiero Proietti, who were two of those who had answered all questions correctly.**

During the CBH school summer party on May 29, those who wished to could answer a quiz with questions about the school's heads of department.

19 people answered all questions correctly, so the winners had to be selected by lot.

Sara Sebelius at Biomedical Engineering and Health Systems, and Giampiero Proietti at Chemistry will each be awarded a prize. Congratulations!

## Time to book a health check!

**All employees at CBH will receive an invitation to a health examination at the occupational health service Avonova. The turn has now come to departments Fibre and Polymer Technology, Gene Technology, and Protein Science.**

A minor health examination is offered to employees schoolwise in different years. This year, the turn has come to the CBH School.

All employees will receive an invitation during the year. Coworkers at these departments are next to receive an invitation via e-mail:

- Fibre and Polymer Technology, CG
- Gene Technology, CH
- Protein Science, CJ.

All who turn 50, 55, 60 or 64 years during the year are also offered a somewhat more comprehensive health examination.

In the initial phase, the age-related health examination has gone out to all of those who have their birthdays between January and April, others will receive the offer later.

## Welcome to CBH's PhD Day!

**CBH's Ph.D. Council are glad to announce that the Ph.D. Day will take place in Skogshem och Wijk on the 27th of September 2019!**

This event will constitute a great occasion for the Ph.D. students to meet each other, but also to get in touch and establish direct communication with the educational and administrative organs of our school. Furthermore, we will be given the possibility to gain more information about how the Swedish system work.

There will be also a pitch competition, that will give you the possibility of gaining one credit!

### **Agenda for the event, the registrations are open!**

08:30 – 09:45 Breakfast and Registration

09:45 – 12:00 Plenary session

12:00 – 13:30 Lunch

13:30 – 14:30 Outdoor activity

14:30 – 15:15 Pitch competition

15:15 – 16:00 Fika

16:00 – 16:30 Q&A with FA/PA

16:30 – 17:00 Q&A with PhD alumni

17:00 – 17:15 Closing remarks

REMINDER - Guest lecture, June 14

“Mixing, aeration and cell damage, 30+ years later: what we learned, how it affected the cell culture industry and what we would like to know more about”

**Welcome to AdBIOPRO's Distinguished guest lecture by Professor Jeffrey Chalmers from Ohio State University.**

**Time:** Fri 2019-06-14, 10:00

**Lecturer:** Professor Jeffrey Chalmers from Ohio State University

**Location:** Albanova FA32, Roslagstullsbacken 21

[More info about the guest lecture](#)

14 June, Open Lab, KTH Campus

## Open Access, Open Data, Data management plans

Open access (OA) is the practice of providing on-line access to scientific information that is free of charge to the user and that is re-usable. It is becoming widely recognized that making research results more accessible to all societal actors contributes to better and more efficient science, and to innovation in the public and private sectors.

A Data Management Plan (DMP) describes the data management life cycle for the data to be collected, processed and/or generated by a research project. As part of making research data findable, accessible, interoperable and re-usable (FAIR) there are several criteria to implement. In this seminar and workshop we will take a practical approach to Open Access and DMP in research and research collaboration.

**Date:** 14 June 2019

**Time:** 09:30 to 13:00

**Venue:** Open Lab, Multipurpose hall, KTH Campus, Valhallavägen 69

### Program

09.30 Welcome, Annika Stensson Trigell, Vice President for Research

09.35 Introduction, Marianne Loor and Natalia Kotova, RSO

09.40 Data Management Plan requirements from funding agencies, Lars Resman, RSO

09.50 Navigating the landscape of Open Access and Open Data, FAIR data, Rosa Lönneborg, KTHB

10.20 A researcher's experience of Electronic Lab Notebooks, Pre-prints etc., Thomas Crouzier, Biopolymer for Life group, Chemistry, CBH School

10.30 Coffee break

10.50 Hands-on workshop

11.45 Summary and conclusion

12.00 Lunch and networking

**[Please register before 11 June](#)**

For more information and updates of the program, see [seminar web page](#).

Welcome!

**Questions about the seminar?** Contact [Marianne Loor](#), Research Support Office.

# Anders Lundgren ends as University Director

**In August 1994, Anders Lundgren arrived at KTH. Now, nearly 25 years later, he is leaving his post as University Director.**

[Read about Anders Lundgren and welcome to the official farewell and thank you ceremony](#)

## KTH Switchboard reminds about encoding your phone

**Before the summer holidays, KTH's switchboard wants to remind you about encoding your telephones when you don't have the possibility to answer.**

In order to give students, our fellow workers and the public the very best service, we ask you to please encode your extensions when you're not able to take your calls.

We also ask you to please make sure that there's no old information registered at your extensions. E.g if you've been ill or on holiday and have forgotten to delete your old information. If that's the case please delete it.

[More info on encoding your telephone](#)

# Opening hours for SRF Office during Summer 2019, Week 26-33 (24/6-16/8)

## **The KTH Switchboard and Service number 9200**

### **Monday-Friday:**

08.00-11.30

12.30-16.00

## **Reception for the University Administration, Brinellvägen 8**

### **Monday-Friday:**

09.00-15.00

## **KTH-Post**

**Post Office opening hours:** 13.00-15.00

During the week 26-33 we deliver and pick up post just once a day, starting at 10.00.

Internal mail boxes will be emptied at 2 occasions during the day, 08.00, final emptying at 14.00.

## **Graphitegrey internal mail boxes marked with KTH-POST can be found at the following addresses:**

Drottning Kristinas Väg 51

Lindstedsvägen /Osquars Backe

Osquars Backe 20

Teknikringen 33

Brinellvägen 68

## **Drottning Kristinas Väg 46, KTH-POST, left of the entrance.**

You can put both internal and external post there.

**NOTE!** You can also place outbound mail with barcode in these boxes.

## **Card Office, Back Office**

The Card Office, Back Office is open during the Summer, with restricted opening hours.

Orders will be picked up due to agreement.

KTH Employees and students pick up their access cards at KTH Entré, as usual.

Questions regarding accesses shall be sent to respective Service Center or to someone responsible for access cards at the respective school.

*The SRF Office is one of six groups at Sustainability, Real Estate and Facility Service (SRF), a part of the University Administration at KTH Royal Institute of Technology.*
