GUIDELINES FOR POSTERS

A poster is a visual description of your contribution, prepared for viewing by conference attendees who visit the posters and talk with the authors during the poster session.

Creating your Poster

- The poster session starts with a 5-minute introduction of each poster and after these brief presentations, there is time for mingling and discussions with the authors.

- Each author shall print and bring their poster to the venue. No printing service is available at KTH SoTL 2019.

- The title of your contribution should be clearly visible on the poster. The name(s) of the author(s) and their department(s) should also be included on the title section of the poster.

- The content of the poster can be planned and created freely. Use of charts, drawings, photographs, and other illustrations are encouraged because posters are visual presentations. Please do not build your poster from multiple small sheets of paper, but instead use one large sheet, use the KTH template.

- You can also provide handouts to summarize the poster and provide your contact information.

- Please arrive at least 10 minutes in advance of the session.
